DOCTOR HOOFLAND'S
CELEBRATED
GERMAN BITTERS,
PREPARED BY
Dr. C. M. JACKSON, Philad'a, Pa.,
WILL EFFECTUALLY CURE
Liver Complaint, Dyspepsia, Jaundice,
Chronic or Nervous Debility, Diseases of the Kidneys, and all Diseases arising from a disordered Liver or Stomach,
Such
as, Constipation, Inward
Piles, Fullness, or
Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried and Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a lying posture, Dimness of Vision, Dots or Webs before the sight, Fever and Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, &c
Sudden Flushes of Heat, Burning in the Flesh, Constant Imagining of Evil, and great Depression of Spirits

The proprietor in offering the attention of the public to this preparation, does so with a feeling of the utmost confidence in its virtues and adaptation to all cases for which it is recommended.

It is the new and untried article before the public, but one that has stood the test of ten years, and before the American people, and its reputation and sale is unrivalled by any similar preparation extant. The testimony in its favor given by the most prominent and well known Physicians and individuals, in all parts of the country is immense. The following, from your own State is respectfully submitted, returning any who may at all doubt, to my "Medicinal Guide," or Practical Receipt Book for Farmers and Families, to be had gratis of all the Agents for the German Bitters.

Principal office and manufactory, 120 Arch st., Philadelphia, Pa.

TESTIMONY FROM MAINE.

Cape Elizabeth, Cumberland, Maine, July 16, 1855, says "I was taken sick one year ago last April upon my passage from Havana to Charleston, S.C. At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite. At last looking up a newspaper having your advertisement of "Hoofland's German Bitters" in it, I sent for some immediately. This was about 11 o'clock, at 11 o'clock I took the first dose, and another at 5 o'clock. The effect was so rapid on me that I had a good appetite for supper, and rested well that night, and the next day found me a well man—I have not been without your medicine since, having been sailing between Baltimore, Charleston, and the West India Islands ever since. I have now given up going to sea and reside with this place. Where you should have an agency, as you could sell large quantities of it."

Messrs. Jos B Hall & Co., Presque Isle, Aroostook Co Maine, April 24, 1854, say "We herewith send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters. We think Mr. Clark to be a man of veracity, and have no doubt of the truth of his story."

Messrs Jos B Hall & Co.—Gentlemen—In answer to your inquiries I will state that my daughter, aged about 16 years, has been complaining of a pain in her side for six or seven years, and about the first of January last was taken down and confined to her bed. The pain in her side was very severe, besides being troubled with pains between her shoulders and in her breast. From reading a number of cases performed by "Hoofland's German Bitters, I was induced to try them in her case, and sent to your store and purchased *one bottle*. She has taken it but a few days when she began to improve, and now, after taking *only one* bottle, she is enjoying better health than she has for years—she feels no pain in her side or in any part of her body, and attributes her cure entirely to the German Bitters. WILLIAM CLARK.
Salmon Brook, Aroostook Co., Me

You should bear in mind that these Bitters are *entirely vegetable*, thereby possessing advantages over most of the preparations recommended for similar diseases.

For sale by respectable dealers and storekeepers generally—and by J S Ingraham, Bangor; W D Morrell, Dexter; E B Fuke, Lincoln.

KENNEDY'S
MEDICAL DISCOVERY.
The Greatest of the Age!
MR KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures EVERY KIND OF HUMOR, from the worst Scrofula down to a common pimple. He has tried it in over a thousand cases, and never failed except in two. He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the worst of blotches.

Two bottles are warranted to cure the worst cancer in the mouth and stomach.

Three to five bottles are warranted to cure the worst cases of erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running of the ears and, matches in the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most obstinate cases of rheumatism.

Three to six bottles are warranted to cure a scrofula.

Five to eight bottles will cure the very worst case of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day as, that a common weed, growing upon the pastures, and along old stone walls should cure every humor in the system, but it is none the less a fact. If you have a humor it has to start. There are no ifs nor ands about it, as long some cases but not yours. He has peddled over a thousand bottles of it in the streets of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old, to old people of sixty, and has seen young looking children, whose flesh was a dirt and a sore, restored to a perfect state of health by one bottle.

All those who are subjects to sick headache, one bottle will relieve you at once. It is a great stomach and liver regulator, and will cure dyspepsia in from four days to a week. There is never a bad result from it—on the contrary, when that feeling is gone you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

No change of diet ever necessary. Eat the best you can get and enough of it.

ROXBURY, Sept 19, 1855

This is to certify that Dr. H. KAY, Druggist, Portland, is the only AUTHORISED GENERAL AGENT for my MEDICAL DISCOVERY for the STATE OF MAINE, and that he is supplied with the GENUINE, direct from my Laboratory. (Signed) DONALD KENNEDY.

Try it! Try it!! Try it!!!
C. W. STONE'S
LIQUID CATHARTIC
—AND—
FAMILY PHYSIC,
The most important discovery ever made in Medical Science, being a compound of Herbs and Roots, which forms the most powerful, safe, and agreeable physic ever offered to the public

THE necessity of such a medicine has long been felt both by the Physician and Family practitioner. Its advantages over cathartics given in the form of Pills or Powders must be obvious to every intelligent person. It operates more immediately and effectually upon the system, and of the same time is applied with less difficulty to admit intestinal quiet agreeable to the taste. It not only produces all the effects where physic is required, but completely removes habitual costiveness, leaving the bowels perfectly free. It expels all worms from the blood, is a certain cure for the Piles, Rheumatism, the action of the Liver, from the stomach, from Colds, suppresses the whole Nervous System, and removes the cause of all local pains, such as

Rheumatism, Neuralgia, Tic Doloureux, Gout, Pain in the Head, Side, Stomach &c.

It may also be relied upon to all diseases of the Bowels—DYSENTERY, DIARRHŒA, AND CHOLERA MORBUS, and I do not care to be singular in influence. Again we repeat, TRY IT—it needs no other recommendation. No family will be without it after they have properly tested its merits. Reader, if you have tried other remedies, without success despair not—relief is now at hand. Are you suffering from Scrofula, six bottles of my Liquid Cathartic will cure you. Would you be relieved from habitual costiveness, seven bottles will effect all that you desire. If you are afflicted with Rheumatism, Neuralgia, or other local pain, two bottles will free you from them—All humors will be eradicated from the blood by the use of from one to six bottles. In short, if you require a physic for any purpose, this is the most reliable, safe, and agreeable to the taste that has ever been placed within the reach of the public.

PRICE $1,00.

HARRISON'S
Columbian Tonic Stimulant
WILL cure all diseases caused by prostration of digestive power. Its action is immediate, as a stimulant to rouse the vital energy to its healthy force, as a tonic, to sustain and perpetuate that force till healthy secretions are restored and natural power returns. It will remove all mild forms of Cholera, Cholera Morbus, Dysentery, Bilious Colic, Fever, and Fever and Ague, and in connection with *Harrison's Columbian Vegetable Emetic*, will cure the most severe cases of these and other acute diseases in the shortest possible time. The Dyspeptic finds immediate relief, and permanent cure, in its use. For all Bronchial and Pulmonary affections, it has great restorative efficacy.

The alcohol and opium inebriates will find it a perfect substitute for both these disease engendering and health destroying articles. It is an exclusively vegetable composition, and a pure tonic and stimulant, without the slightest diseasing property in its composition or action on the system. The friends of Temperance then will find it an agent of great potency in their cause, and that the vitiated cravings of a diseased appetite under its use will give place to healthy action, and natural desire. It is delicious to the taste, and grateful to the sensibilities of the stomach. It may be taken in its present form, a *cold syrup*, or in water, making a *delightful beverage*. As a daily beverage, its delicateness is *unequalled* by any fermented or alcoholic preparation. It prevents as well as cures disease. Its use is applicable in all climates in all seasons, to all diseases, and in all conditions of life, and from extreme of infancy to extreme of age. Price $1

HARRISON'S
Columbian Vegetable Emetic
Will withdraw and expel all diseased matter, solid, fluid, or gaseous, from all parts of the system. Under its timely use operates in its expectorant, alterative, and anodyne. It acts in each of its modes according to *nature*, relieves the laboring organs of diseased matter, and permits a free action of its natural functions to restore strength. It is the only *safe* and *certain* medicine in all severe forms of Cholera, Cholera Morbus, Bilious Cholic, Dysentery, Pleurisy, and every other acute disease. It has great remedial power in all Chronic diseases. In both acute and chronic diseases, assisted by the invigorating and sanitizing power of *Harrison's Columbian Tonic Stimulant*, cures are certain. Principles of treatment and directions for use accompany each medicine. Price 50 cts

HAS ARRIVED!
The Voluntary Testimony of Living Witnesses, is that
Hayes' Allied Ointment,
and Humor Syrup,
IS the BEST REMEDIAL ever offered to the public for the cure of all Humors.

It has stood the test of the last seven years and in allaying all the pains which are not known until its power is felt, is the greatest ALLEVIATOR of PAIN in SUFFERING that those afflicted with any kinds of Humor, and finally one of the greatest blessings to mankind ever before the public, as we can show by the evidences of living witnesses.

Read the following—it speaks for itself
LAWRENCE, June 11, 1854.

We, the undersigned citizens of Lawrence, having used the Vegetable Allied Ointment prepared by Dr. J. Hayes of this city, and being perfectly acquainted with the Doctor, feel pleasure in adding our testimony to all the Doctor claims for his medicine. Unless other remedies in the market, this preparation possesses the effect specially and with certainty. The Ointment we have used with the most happy result after vainly seeking relief by the free use of various pulmonary, &c., &c.

Our experience fully justifies us in confidently recommending it as the article, and the only one known to us as performing all it claims.

A H BUNKER, A WESTERN,
B I THOMPSON, ANA T BANGRON

IT CURES
The Salt Rheum, Scrofula, Erysipelas, White Leprosy Cancerous Humors, Ring Worm, Scald Head, Barn and Scalds, Chilblains Piles, (a preparation expressly, Barbers' Itch, Fever Sores and all old Mercurial Sores of long standing. It removes all those vexatious Pimples, Eruptions and Moth or Mildew from the face, leaving the skin perfectly soft and smooth, adding great by to the beauty of complexion. Never, in no case, will it leave the least mark or scar. It will draw humors from the stomach, Lungs, Throat, and from the Head and Eyes, by an outward application. It improves it's sight wonderfully where the eyes are troubled with humors, by removing the difficulty, and restoring the sight.

Hayes' Pile Ointment,

BOUNTY LAND.
To Holders of
LAND WARRANTS!!
John L. Hodsdon,
DOW'S BLOCK, Hammond Street, Bangor, would call the attention of those who may have *LAND WARRANTS* to sell, to the fact that he has orders for large numbers of Land Warrants from parties in the West, who authorize him to pay for the same the highest market value in CASH. Any person having a Warrant may therefore be assured that he can obtain from Mr. H the most favorable price for it.

To those who desire to
Locate their Warrants,
he would further say that he has skilled and careful agents in the States of
WISCONSIN
AND IOWA,
and in the Territory of Minnesota, who will locate any Warrants on the most desirable lands, without advance pay.

Let all holders of Bounty Land Claims call on JOHN L. HODSDON,
jy11 d&w Dow's Block, Hammond street

BOUNTY LANDS
THE hundreds of Soldiers for whom Land Warrants of less than 160 acres have been procured by
Isaac & John L. Hodsdon,
and if deceased, their widows or minor children and all others entitled, can receive the benefit of the new Act personally or by letter, to General ISAAC HODSDON, at Dover, or the subscriber at Bangor

BOUNTY LAND!
B. H MACE.
Counsellor and Attorney at Law.
WOULD give notice that he is prepared to prosecute all claims to BOUNTY LAND under a recent act of Congress, granting 160 acres to all who have served 14 DAYS in any war since 1790.

Those who have received 40 acres are entitled to 120 those who have received 80 acres are entitled to 80 more. The Aroostook Soldiers (Militia) are included in the above provisions. Widows of or for Children of deceased Soldiers, are also entitled.

Mr M having procured many Warrants under the former Acts, and being in possession of the Rolls, feels confident that he can give entire satisfaction to all who may place their claims in his hands.

No charge unless successful, and the highest market price PAID to those who wish to sell.
Office in Baldwin's Brick Block, Head Market Square next door to Hall Parker's Office
Bangor, March 6 1855 d1wtf

More Bounty Lands.
BY the Act of Congress passed March 3, 1855, all Officers, Soldiers, and Seamen who have served FOURTEEN DAYS in any war in the United States since 1775, are entitled to 160 acres of land, if they have not received it. Those who have received 40 or 80 acres, are now entitled to enough more to make up the 160. Those who have received 160 acres are not entitled to any more. The benefit of this Act extends to the widow and minor children of the soldier, but to no other heirs. Those who have been engaged in BATTLE are entitled to 160 acres, without regard to the period of their service.

Persons having claims under this or any other Act, will have them promptly attended to by calling on, or writing to, A. E. RICHARDSON & CO., 11 Railroad Exchange, Court Square, Boston, who pay cash for warrants.

N. B.—We have faithful and experienced agents in Washington, and we make no charge in any case, unless we obtain the land.

European Affairs.

The America, now due at Halifax, probably brings the news, either of a bombardment of Sebastopol more terrible than any which have preceded it,—with the assault and capture, perhaps, of the famous Malakoff tower and the taking of the southern part of the city—or, what is rather more likely, she brings intelligence of a renewed assault by the Russians upon the French and English lines, another bloody repulse,—and perhaps, the final determination of the allies to sit down quietly around the city, and attempt to reduce it by famine. The America's news will probably be found in our telegraphic columns.

A London writer of considerable reliability, in a letter to the Herald, by the last steamer, says it was then admitted on all sides, that another winter in the Crimea is a settled thing; and both the French and English governments were putting forth the most energetic efforts to provide comfortable quarters for the troops, who in that rigorous climate will suffer immensely if not better provided with clothing and houses, than they were last winter. Railways are making, to connect the different camps, and wooden and iron huts in preparation, in great numbers. Money is spent with a profusion which will make the tax-payers of England and France groan still deeper for a century to come, and contractors are making fortunes at a rate which puts the Mexican war operations in that line quite in the shade. The writer above referred to, states that a French contractor (said to be connected with the French government,) was then in London buying grain, and that he had actually made the small profit of two millions sterling in the course of a few months. This is incredible—but the statement that another lucky favorite had cleared $10,000 on the charter of a single ship, is not so improbable.

The expenditures of the two governments for war purposes now reach two millions sterling per week— equal to $500,000,000 per annum—for all of which, posterity is mortgaged, and the taxes of the present generation are to be doubled up, to pay the interest. With all this expense, the loss of life is also immense. Not less than 200,000 lives have been sacrificed on each side since the war commenced, and yet we are told, the contest has but just begun. Certainly nothing has yet been *effected* by the warlike operations.

To return, however, to the present condition of things in the Crimea. Advices from Paris say that the expectation of a speedy renewal of the assaults upon Sebastopol was not then authorized by the tenor of letters from the camp—inasmuch as it was thought a foothold in the Malakoff would cost 20,000 men—and after being attained, it would be rendered untenable by the new and [illegible] erected works which have been thrown up to command it, by the Russians, of whose indomitable zeal and determination there seems to be no relaxation, and whose scientific skill in engineering appears to exceed that of the allies. This last sudden creation of Todleben (their famous engineer,) by which the Malakoff is commanded, is called the "Fort of the Holy Cross." In view of these additional works of defence, it is said by the N. Y. Times correspondent that many people believe the allies will wait for winter and famine to reduce the city. The Russians, however, do not appear to apprehend famine—it being stated that the Russian contractors have readily assumed obligations at Odessa to feed 160,000 men in the Crimea, till April next.

Grand preparations have been made, however, for another bombardment and an assault, and the America may bring tidings of a partial success. But if made, and a similar successful or unsuccessful, it must needs have cost another multitude of lives—and will probably leave the northern part of the city still in the hands of the Russians.

Meantime, it is said, that negotiations will not be resumed until Sebastopol falls, although rumors are current that the Russian government has sent a new circular to Vienna and Berlin, intimating a willingness to resume the negotiations. We think the rumor must be unfounded, for neither in the Black Sea nor in the Baltic have the allies yet accomplished anything to shake the belief of the Russians in the invulnerability of their empire.

While the war is thus going on between the great powers, with faint prospect of any speedy relaxation, there are indications of a popular insurrection in the Neapolitan kingdom, provoked by the excessive tyranny of King Bomba, and encouraged, it is thought, by Louis Napoleon himself, in consequence of the Russian proclivities shown by the Neapolitan government, and from a desire of the French Emperor to place his cousin Lucien Murat on the Neapolitan throne. There is also another threatened revolution in Spain on the tapis—by which it is intended to restore Narvaez, the ablest of recent Spanish Ministers, to a controlling position—and in this too, Napoleon is said to have a finger.

To complicate matters still more, there is talk of France and England supporting Denmark in her refusal to remit the Sound dues to United States vessels,—but in this report we have no faith. The British and French governments have quite enough on their hands, without foolishly committing themselves to a policy which would inevitably bring about a collision with the United States—and they will be careful not to go too far in the matter, even to secure Denmark's adhesion to the Western alliance. The United States government has determined that the toll heretofore paid by our vessels for the mere privilege of entering the Baltic Sea, (which ought to be as free as the Atlantic or Pacific ocean,) is unjust, and that the American people will no longer submit to it. With these views, notice has been given to Denmark, that the treaty of 1826, (agreeing to the exaction,) shall terminate next summer, and that the United States will thereafter resist the payment of the toll, to which the Danish cabinet has replied, to our Minister at Copenhagen, that unless that treaty is renewed, our vessels will be treated on the same footing as those of "unfavored nations"—that is, we presume, that an attempt will be made to exclude them from passing the Sound. Denmark, however, will scarcely make the attempt in earnest, to exclude them, unless supported by France or England, or both. But, as remarked above, we do not believe those governments in their present circumstances, will take on their hands an additional "spot of work," of so serious a nature as this would undoubtedly be. Our government has gone too far in the matter to recede, and the result will be, in our opinion, that these taxes upon free navigation will speedily be abolished—not only for our convenience, but for that of all nations—and that Denmark will be obliged to raise her revenue in the same manner as other countries, instead of depending upon her present unjust exactions. We have no fears that the difficulty will lead serious as to draw us in any manner into the European struggle. The affair, however, just now creates some anxiety in the British and French cabinets.

The New York Musical Review, published at New York, by Mason & Brothers, is a very valuable publication for all musical people who desire to keep the run of interesting intelligence relative to the art, and of the progress and cultivation of good musical taste. The instruction to be derived from its pages is also of great value.

FINE FRUIT.—We are indebted to Mr. James Robinson, No 7 State Street, for a basket of excellent fruit,—pears, peaches and apples—from his establishment. Mr. R. has received an extensive variety of the best kinds of fruits, and offers them at reasonable prices. His location is a convenient and accessible one.

Salt is quite scarce and high at the present time, selling at Turks Island for 25 and 30 cents. A considerable quantity of the article was sent from our city to New York, the other day, by one of our merchants who has an over supply.

By a despatch to L. Bradford, Esq., we learn that sch. Connecticut, of Bangor, Capt Veazie, from Georgetown S. C. for an Eastern port, was towed into New York yesterday, 26th, in distress—the crew all down with fever.

All the property of the Sagadahoc Ferry Co., at Bath, including a perpetual lease of way on the western side of the Kennebec, a water frontage of eight rods by eleven on the eastern shore, the steamer Woolwich, piers, sheds, wood, floating pipe, &c., was sold at public auction, Saturday forenoon, to Wm M. Rogers, for $1400.

THE PHILADELPHIA BOOK TRADE SALE.—The forty fifth book trade sale closed on Monday evening. The aggregate amount of the sale as near as can be ascertained, is $200,000, affording remunerative prices to the publishers.

Hubbard Wright, a straight out Whig, will represent the town of Bradford, Vt., in the next Legislature of that state, and will probably be the only representative of his party.

The Bath Daily Tribune has been enlarged and improved. It presents a very neat appearance.

FREIGHTS ARE HIGHER.—See advertisement of schooner at auction, this afternoon, at 3 o'clock.

THE RACHEL HEAD DRESS. The name of Mad Rachel, like those of many of her distinguished predecessors upon the American stage, is evidently destined to be honored by an indiscriminate application to all sorts of new inventions, hotels, caps, bonnets, &c. The Rachel style of dressing the hair has already been introduced in New York. It is as follows:

"The back hair is plaited in the wide Circassian braid, and arranged so as to form a star, a Grecian braid, through which pearls are interwoven, is brought round, forming a border or trimming to the wider braid, and in the centre a diamond star shines forth from a contrasting background of black velvet. Between each of the four points of the star are placed bunches of small flowers, violets, myrtle blossoms or rosebuds, with pendant sprays falling on each side of the neck, the two upper clusters meet the front hair, which is looped up in two thick curls, brought down rather long on the face.—It is called the 'Rachel,' and forms a *tout ensemble* which we have seldom seen equalled. For *neglige* the back hair is arranged in a double *figure d'huit*, divided by a thick twist or cable, which surrounds them like a frame-work, the front hair braided or curled. From the same source we have received the following elegant wedding dress. A white satin skirt, over which falls a *demi jupe* of point lace, looped up at intervals with camelias, the corsage rounded and trimmed with bretelles of point lace, extending below the waist in broad lappets; the sleeves short, with puffings of satin and falls of lace looped up with camelias."

THE RECENT ROBBERY OF GOVERNMENT MONEY, discovered at New York, was a bold and ingenious affair. The circumstances are thus related:

"Two boxes which it was believed contained coin to the amount of $25,000 in each, were received on Friday morning from Dubuque, Iowa, directed to the Sub-Treasury. They were in apparent good order, sealed and iron bound, but as one of the lids was a little loose, it attracted the attention of the receiving clerk. On shaking the box, his suspicions were immediately roused. Instead of the light jingle of gold, its contents had the dull, heavy sound of lead. Before opening the box, however, he informed the President, Mr Henry Wells, who directed it to be delivered immediately at the Sub-Treasury, and went there himself to witness its examination. Several of the officers were called in, and in their presence the seal was broken and the lid raised, when, instead of $25,000 in gold coin, it was found to contain 175 pounds of rifle bullets, and 25 pounds of sheet lead. The other box was opened, and the same amount of lead discovered in it. The Chief of Police was immediately sent for, and the matter placed in his hands.

THE ST. NICHOLAS TRAGEDY.—The physicians of Capt. Wright, who was so fearfully stabbed at the St. Nicholas Hotel on the night of the 15th inst., by Robt. J. Dean, have given a certificate to the effect that they consider their patient convalescent and out of danger. Upon the strength of this certificate, application has been made by the defendants, Dean and Montgomery, to be admitted to bail, and on, Saturday Justice Davidson received bonds to the amount of $5,000 in the case of Dean, and $2,500 in that of Montgomery, for their appearance when called for, and they were liberated from prison.—*N. Y. Courier.*

REPUBLICAN SENTIMENTS OF SENATOR CHASE. The Dayton (Ohio) Journal has a report of a speech made by Senator Chase at that place recently, in which he uttered the following sentiments:

"You are told that Chase is a disunionist.—One kind of disunion I am in favor of—the disunion of taxes from the shoulders of the people; not the disunion of this great and glorious confederacy of ours, purchased with the toil and cemented with the blood of our fathers. No syllable of mine—printed or spoken—has ever or can be found, inconsistent with what I utter in your hearing now. The Union of the States! God preserve it to us and to our children's children until the latest generations!

* * * * * * * *

I am an Abolitionist in no sense but that in which Washington, Jefferson, Patrick Henry, and other great men of the Revolution were abolitionists. I have defended my opinions on the floor of Congress, by reference to the records they left. I have said slavery is an evil, so did they. I have said it is not a good; so do you. If it be good and not bad, why have we excluded it forever from Ohio? Our people desire every good thing, but they never desired slavery. But while I hold this opinion in common with you all, I have equally held that slavery in Kentucky is something with which we and the General Government have no right to interfere. It exists only by State law, and by that law only can it be abolished. But while I would let Slavery alone in Kentucky, I insist that Slavery in Kentucky shall let Freedom alone in Ohio."

FROM CHINA.—The Overland Friend of China of July 10th, seems to place little confidence in the impression that the patriot cause either in the north or in the neighborhood of China has received any serious check. In regard to the accounts favorable to the imperial cause in the Pekin Gazette, it intimates a strong distrust of the information derived from that source. On the subject of the state of affairs in and about Canton, we find the following:

The amount of bloodshed at Canton during the last month has been sickening. When Saouking, the second city of the province was vacated without fighting a short time ago, a number of the inhabitants thought mercy would be shown them, if they gave themselves up. With equal reason, might forbearance have been expected from the hungry wolf—they were taken to Canton in droves of five hundred, as many as ten thousand, it is said being confined in the city at one time. Kept without food for several days, when the hour of examination, so called, eye witnesses tell of the utmost callousness being exhibited, the condemned getting into the execution basket with even apparent satisfaction.

At the rate of seven and eight hundred a day for some time, the whole ten thousand and thousands more, were soon got rid of. Several were skinned alive, and one higher criminal than the rest was cut in twenty four pieces—lingering, dying.—From the careless way in which the bodies were interred in heaps at the eastward of the city, and the disgusting stench in the vicinity of the execution ground, it will not surprise us to hear of a plague carrying off its victims by the thousands. Extending to the foreign factories, but vacation which prudence dictated when the rebels invested the city will then become a matter of necessity. We would commend this matter to her Majesty's Plenipotentiary here. We do not write for the purpose of frightening—we report facts—the public must draw their inferences.

But with all these executions and their probable terrible consequences, there is no abatement of the rebellion—there is no instance of any of the leaders giving up the cause for promised rewards,—in no case have the insurgents retired before, through want of food and ammunition, all reasonable prospect of successful opposition had apparently gone. From Shau-king for they marched northwest, with Hoe Alkin's band in company, forty thousand strong. Our local contemporaries, no doubt in their summaries of the occurrences around us, will endeavor to propagate a belief that the neck of the rebellion hereabout is broken.—Such assertions must be received with caution.—It is not to the interest of journalists in the South to make matters appear worse than they are—and it is certainly improper to give such coloring to a tale as may best suit their wishes.

THE HEINICKEN TRAGEDY.—*Engineer Indicted for Manslaughter.* On Wednesday afternoon last, Dr. Heincken went before the Grand Jury and entered a complaint against the Camden and Amboy Railroad Company, and charged the conductor, engineer, and brakeman, of that train, with negligence, in not giving an alarm. On the same afternoon a counter complaint was entered against Dr. Heincken by Peter Shreeve one of the passengers on that day, who resides at Bordentown, and is a relative of the engineer, Israel Adams, for the purpose of introducing rebutting testimony.

A measurement of the ground showed that the great speed of the backing train, by one blow, knocked one of Dr. Heincken's horses a distance of forty-two yards on one side of the track, and the other thirty six on the opposite side of the track. The conclusion they arrived at was, that, at the speed the train was backing, had Dr. Heincken observed it after the last time he looked up the track, he would not have had time to keep clear of it. The Grand Jury came into Court and presented a bill for manslaughter against the engineer, Israel Adams.

There was no bill found against the Rail Road Company, except so far as the company may be implicated by the finding of the bill against the engineer.

A FAIR PENITENT IN A FIX.—The fashion of wearing dresses of extreme breadth has spread from Paris to the provinces. The Courrier de l'Eure mentions an unfortunate occurrence, occasioned the other day by the custom. A lady it seems, presented herself at the confessional of the Cathedral. But presenting herself was not all that was to be done, it was necessary to enter the narrow space reserved to the penitent, and to reach the grating separating him or her from the priest. To do this the dress submitted to extraordinary efforts; but the whalebone of the under dress was obstinate, and, compressed on one side, the balloon spread out on the other. The dress persisted in its resistance—a silent resistance, scarcely betrayed by the rustling of silk, and the little movements of half stifled impatience. At last the worldly toilet got the better of the aspirations of piety. Reddened by confusion, the penitent quitted the spot and left the church.

WHAT IS NOT CHARITY.—It is not charity to give a penny to a street mendicant of whom nothing is known, while we haggle with a poor man out of employment for a miserable dime. It is not charity to beat down a seamstress to starvation prices; to let her sit chilled in wet clothes sewing all day, to deduct from her pitiful remuneration if the storm delay her prompt arrival. It is not charity to take a poor relation into the family, make her a slave to all your whims, and taunt her continually with her dependent situation. It is not charity to turn a man who is out of work into the streets with his family because he cannot pay his rent. It is not charity to extract the uttermost farthing from the widow and orphan. It is not charity to give with a supercilious air and patronage, as if God had made you, the rich man of different blood from the shivering recipient, whose only claim is that he is poor. It is not charity to be an extortioner—no [illegible] though you bestow alms by thousands.—*Exchange.*

LOCUSTS IN NEWFOUNDLAND.—It is painful to learn that advices have reached town of the destruction of the potatoe and every kind of vegetable in many places, to the northward of Cape Freels, particularly at the settlement called Muddy Hole, by an immense body of locusts, or insects of another generation, which besieged the settlements during the last thunder days. Our informant states that even the very dwelling [illegible]

FALL TRADE IN THE CITY.—The fall trade of this city has been excellent thus far, and our merchants, in the dry goods business, have done a larger amount of business than ever before. The sales of some of our largest firms, for the last four weeks, have amounted to from $100,000 to $300,000 each per week. The purchases have been principally made by Southern and Western merchants.—*Boston Times.*

The Journal, in reply to the Courier, hints that there are some Whigs "who are preparing to leap into the Democratic ranks, and only want something to break their fall." To such Whigs the nomination of Rockwell by the Whig Convention may serve a good enough cushion. If they can not support Beach by diverting the Whig vote from Rockwell, they will do it directly. We have no fellowship of feeling with such Whigs.—*Boston Atlas.*

[For the Daily Whig and Courier.]

"Our Ella."

BY FLORA

Oh! stay thy rude hand,
Dark Angel of Death,
And spare our sweet Ella
To dwell with us yet,
Her smiles have but cheered us
In days how brief,
Oh! spare her in childhood,
And lighten our grief.

Thou art beckoning her on
To a far brighter Home,
Where sadness ne'er entered,
And no sorrow can come,
Where the heart shall be free
From the dark cares of earth,
And to songs of loud praises,
Bright angels give birth.

The fair bud is drooping,
To wither and die,
The lustre is fading
From her once beaming eye,
Around her soft cheek
There lingers no smile,
Nought of joy can we trace,
All is sorrow—the while.

Once again let her cheer us
With her feet, merry laugh,
Plant a smile on her visage
And joy in her path,
Give strength, oh, give strength
To her young drooping mind,
And spare our sweet Ella,
In youth's sweet spring time.

Bangor, Sept. 1855.

[Advertisement.]

[From the Boston Journal.]

Medicinal Inhalation for the Cure of Consumption.

Mr. Editor.—This mode of treating Lung Diseases, extensively practiced by myself for more than six years, is justly attracting much attention. It strikes the popular mind, and the professional mind, too, as being eminently reasonable and necessary. It conveys the remedy directly to the diseased parts and I claim that it comes with the highest of all sanctions—being armed with the power of cure.

Whether it be so armed, is a question of incalculable interest, as a moment's reflection will convince any one. Small pox, yellow fever and cholera are very terrible in their visitations, but what are all their aggregate slaughters to the ceaseless, silent march of that fell disease which ever steals away in their fresh prime the brightest and best? Boston from its population of 150,000, loses by consumption, about 15 per week, 65 per month, or about 780 per annum. Massachusetts loses about 6,000 per annum, New England, not less than 20,000, and with the State of New York added, the victims of this single disease swell to 40,000 a year! What an army! Picked from the choicest! All sundered from the nation, and leaving more blight and sorrow behind them than perhaps twice or thrice the number would whom any other pestilence would have selected. The magnitude of the evil, places the question of the remedy before all others that pertain to the healing art.

I shall speak of inhalation, therefore, very earnestly,—not as a palliative merely, but as far more,—as a *remedy*. After long and patient use, my experience allows me to say, I know it to be such, and knowing this, I should be criminal not to present it to the public. With no other feeling towards my professional brethren than that of respect, I shall yet address what I have to say to the popular mind, for it is the great multitude of sufferers, pressing fast through the gate of death, who need a few words of hope.

It is not denied that consumption is a general disease, needing constitutional treatment, but it has also a local development in the lungs first in the form of tuberculous tumors, called tubercles, and then after the softening, breaking down and discharge of these, in the more formidable shape of ulcerous cavities which, beginning at the summit, devour the lungs down to the base. Can it be reasonable to apply no remedy directly to this local disease? Not so does our profession deal with other local diseases. To an inflamed skin we apply poultices, cold compresses, solutions of acetate of lead, nitrate of silver, &c. to leprous or scaly affections, sulphuret of potash, chloride of mercury, zinc ointment, nitrate of mercury ointment, sulphur, creosote, &c., to weak and inflamed eyes, sulphate of copper, sulphate of zinc, nitrate of silver and opium, to ulcerated gums, sulphate of zinc, myrrh, honey, &c., to open chronic ulcers upon the skin, tannin, pulverized rhubarb, opium, of cinchona, and to inflamed throat, nitrate of silver. These are but specimens of the thousand cases in which we use local remedies. Why when, when the mucous membrane which lines the air tubes, becomes inflamed through all its branches, should we neglect by the inhalation of medicated vapor to apply a remedy directly upon the whole inflamed surface? Why, then tubercular matter is beginning to be deposited upon the surface of the air cells, and of the small bronchial tubes, should not the vapor go to those parts, and cause as it would, the immediate expulsion of this offending and dangerous matter? Uneducated common sense sees the reasonableness of these suggestions at a glance. Many a person, with pulmonary disease, dies of suffocation, not because there is not muscular strength to expel the matter which is strangling him, but because the lungs *below* the large pillets of mucous which plug up the bronchial tubes, cannot be inflated, and have therefore no means of driving out the offending substance. Yet a proper medicated vapor, drawn in with the breath, would either dissolve the mucous, or rouse up the expiring membrane to cast it off.

If the reader were to place one end of a stethoscope directly over the disease upon the breast of a person in the third stage of consumption, and should then ask him to talk, the words spoken would seem to rise up through the instrument, and enter well articulated into his ear. This in technical language, is called *pectoriloquy*—a word signifying *chest talking*. It implies a cavity in the lungs. If now the patient be asked to *cough*, a gurgling and splashing sound will be heard. This denotes that the cavity is partly filled with fluid, which is dashed about by the air explosively driven through it by a portion of the lung below. Here we have an evacuated ulcer, with all its filthy contents, composed of pus, mucous, serum, and dissolved tubercles, lying in it day and night to aggravate its unhealthy condition. What more reasonable, what more necessary, than that a soothing, alterative, and astringent vapor should be drawn into this cavity, to cause its sides to heal, and its absorbents to remove this fluid? A surgeon who should permit an ulcer upon the surface of the body to remain in that condition without a local dressing, would be deemed unfit to practice his profession.

Both in tubercular disease and in simple bronchitis, the bronchial tubes almost always suffer some physical change. The mucous membrane lining these tubes is generally softened. At other times they become enlarged through their whole length, so that many of them from the size of a quill reach the bigness of a finger of a glove. In still other cases, the straining produced by coughing causes a tube to belly out, at some point, forming a sack, which is generally filled with mucous or purulent matter. At other times a tubercle will press against a tube so as to flatten it and convert it into a musical instrument—the air, as it is drawn laboriously through, producing a high or low note, according to the size of the pipe. These physical changes are all produced by causes which the inhalation of a suitable vapor, at the proper time, would almost infallibly remove. How strange that this remedy—so simple, so effectual, so easily comprehended—should have been so little used! Right at that vital point in the lungs, where the blood rushes in a ceaseless current the whole of [illegible] every two minutes to renew its vitality by contact with atmospheric air—we are [illegible] cases daily occurring, inflammation with [illegible] softening of membranes, with lessened quantity of breath, we have mucous, cough or [illegible] interrupted respiration; we have tubercles in the [illegible] state, adding to the general [illegible] lessening the quality of the blood, [illegible] sympathies of the [illegible] [illegible]

disparaging remedies taken into the stomach. For while it is true that Consumption is a local disease, it is equally true that it is constitutional—consisting in mal-assimilation. Now, as all animal and vegetable growth begins with the cell, and as the cell is produced by the *union of a minute particle of oil with albumen,* reason suggests, what experience proves that Cod Liver Oil is a valuable remedy, provided it can be had pure. Besides oil, iron also, with quinine and other tonics, are often of great service.—But that they may be borne without producing fever much exercise should be taken in the open air. Bathing and friction should likewise be used, and more than all, perhaps, should depressing emotions be dispelled, and the mind of the patient be filled with pleasure, hope and cheerfulness. But however judicious these general modes of treatment, if pellets of mucous are permitted to remain in the air tubes, if the membrane lining them is allowed to remain dry and rough, and to become thickened, if the air-cells are permitted to grow stiff by tuberculous deposits within them, so that effort is necessary to fill the pulmonary organs, such a state of things is sure to bring in its train that mal-assimilation which is the forerunner of tubercles, and all the catalogue of ills which end in death. And this brings me to a repeated affirmation of the necessity of meeting these local disturbances by the direct remedy of inhalation.

In the autumn of 1840, the writer of this article turned his whole attention to the treatment of throat and lung diseases. In the fall and early winter of the next year, 1841 he contrived his Shower Syringes for treating throat diseases, which are now extensively used and for which he has received letters of thanks from the profession in every part of the Union. He well remembers sitting in his study, on Christmas day, while recovering from sickness, and whittling with his knife a pattern for those syringes and also a powder Inhaler—both of which have since been secured to him by letters patent. Since that time, he has constantly used inhalation in managing lung complaints.

I mention these facts because a member of the profession in New York virtually claims priority to others in this mode of treatment, while his dates show that I was two years before him. The whole system of inhalation, now so properly used, was for some time practised to any extent by myself alone.

The difficulty of getting powder into the lungs I found so great, that I soon began to resort to the more feasible mode of inhaling vapors and fumes, which easily reach every air cell, and permeate every particle of lung tissue.

For breathing vapors, I have constructed an instrument with two tubes, (silver or britannia) running through a silver plated cap into a flint glass bottle, which is encased in a neatly ornamented paste board box. One tube descends into the fluid to be vaporized—the other merely reaches through the cap—the upper portion being finished in the form of a neat mouth piece, through which the vapor is to be drawn into the lungs. The act of suction upon this mouth piece creates a vacuum in the bottle above the fluid, producing a violent commotion, and a bubbling up of the vapor, to be drawn out through the short tube.

This is about the only feasible way of inhaling effectually. The mode of doing it from a sponge held to the face is imperfect, as the largest portion of the vapor is lost, while that of tying a saturated sponge upon the chest is scarcely worthy of mention, as hardly a thousandth part of the vapor reaches the nostrils, and the sponge itself then becomes filthy, and therefore offensive to the wearer and to those around. India Rubber tubes are liable also to the objection of becoming foul, and in the French hospitals have in several instances communicated disease to others after having been used by persons with extensively ulcerated lungs.

I deem it important that persons who wish to give my modes of inhalation a fair trial, should come to Boston, and, under my immediate care, allow them to be used systematically and thoroughly. I am making arrangements for a beautiful *Retreat for the Consumptive,* just in the borders of this city, where those suffering from pulmonary complaints may find the comforts of a home and where inhalation in all its varieties may have a chance to display its powers. Persons who cannot visit me may, if they choose, write fully with me as to the next best method of proceeding.

To thousands of families in New England, this article opens a subject of deep interest, for one of the horrible features of consumption is the measurable [illegible] to which professional custom consigns all upon whom it fastens.—Happily, nature does not agree with our profession in the conclusion that consumption is incurable, and the contrary she is after fully careful in this disease to cherish the hope of recovery, and if not merely examinations tell the truth, this hope in thousands of cases has not been delusive.

I would not speak upon any subject otherwise than seriously, and with due deference to the convictions of enlightened men, but it is my firm belief that if the *forty* thousand who are destined to die of pulmonary disease in New York and New England within the next twelve months, could be put upon a system of inhalation judiciously administered with such other treatment as to [illegible] skill supplies, thirty thousand of them would remain to comfort their friends for many years.

The subject is hardly opened, but I must close. I am bound up heart and soul in the study and treatment of this most fearful disease. Any persons who wish my views upon these diseases [illegible] value, may have a small book from me gratuitously, by asking for it [illegible]. I also consult with those who [illegible] article is written, [illegible] close by saying—*hope.*

IRA WARREN, M. D.
Boston, 3 Avon Place.

MAKING A DISCOVERY. Many persons are now examining the maps to find "the seat of war," but Judson & Co's Diamond Light and Rosin Oil, at the expense of one third of a cent an hour, is a much greater discovery than "Fubbs" ever made by sitting down in a wasps nest in the Lisfield." Orders received by S. B. Brooks, at the Hatch House, this week only.

Assessors' Notice.

The Assessors of the City of Bangor will be in session at their office on *Saturday* of each week in the months of September, October and November, at 3 o'clock P. M., to act upon such applications as may be made for the correction of errors in the valuation.

STEAMERS.

Outside Passenger Line!

OPPOSITION BOAT
To Boston and Lowell
$1.50 TO BOSTON.

The SUPERIOR and FAVORITE STEAMER

PENOBSCOT,
SAMUEL G. FLOWERS, Master,

BUILT expressly for the outside route, having been thoroughly overhauled and placed in first rate condition throughout, conforming strictly with the U. S. Steamboat Law, will commence her regular trips between *Bangor and Boston*, touching at intermediate landings, on Thursday, the 11th inst., and will continue running during the present season, as an EXCLUSIVELY PASSENGER BOAT, as follows.

Leaves *Lower* Steamboat Wharf, Bangor, every MONDAY and THURSDAY morning, at 10 o'clock.

—RETURNING—

Will leave the end of Long Wharf, Boston, every TUESDAY and FRIDAY evenings, at 5 o'clock, arriving early the next day

FARE—From Bangor to Boston,	$1,50
Bangor to Lowell,	2,25
Belfast to Boston,	1,25
Rockland to Boston,	1,00

Way Fares as usual. *Meals extra*

*** All persons are forbid trusting any one on account of this boat without a written order from the captain or agent

As the Penobscot will be run *exclusively for passengers*, and will in no case carry *freight of any description*, (except express packages,) travelers may feel assured of finding every convenience and comfort furnished by *any steamboat*, for passengers only, having superior accommodations. Apply on board, or to

F D EDMUNDS, Agent,
Lower Steamboat Wharf.

Bangor, June 11 1855 d&w

Sanford's Independent Line!

For Boston and Lowell.

The Favorite and Superior Steamer

KENNEBEC
CAPT. C. O. CLARK,

HAVING been thoroughly repaired and refurnished, will run as follows during the Steamboat season of 1855—

Leaves *Bangor* for *Boston* every **Wednesday** and **Saturday** forenoon, at 11 o clock, touching at all the usual landings on the River and Bay.

RETURNING

Will leave Foster's South Wharf, *Boston*, every **Monday** and **Thursday**, afternoon, at 5 o'clock, touching as above.

FARE—From Bangor, Hampden, Frankfort & Bucksport, to Boston, $2,00—to Lowell, $2,75, Searsport and Belfast to Boston $1,75—to Lowell $2,50 Camden and Rockland to Boston, $1,50—to Lowell, $2,25 Way Fare at the usual rate. Meals extra.

LOOMIS TAYLOR, Agent

Bangor, August 2, 1855

California Steamers,

Carrying the United States Mail.

5th and 20th of each Month.

Reduced Prices [illegible] Baggage Free

Through Tickets, including transit of the Isthmus, via Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense*. This is the only line giving entire Through Tickets, including meals on the Isthmus.

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague and 20 miles of dangerous lake and river navigation over rocks and shoals

Arrangements have now been completed so that the regular U. S. Pacific M M Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage without any detention on the Isthmus

Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama, and Tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city. C. L. BARTLETT, Agent,
No 16 Broad street, Boston

Steamboat Notice.

The Penobscot River Steamboats

WILL commence running between Oldtown and Five Islands on and after MONDAY, April 23, 1855

Leave Oldtown for Five Islands at 7 o'clock A. M., connecting with the morning train of cars from Bangor.

Leave Five Islands for Oldtown at 6 A. M., arriving in Oldtown in season to take the 2 o'clock train of cars for Bangor

A boat will leave Oldtown for Piscataquis at 2 o'clock P. M. on and after Tuesday, April 24, 1855

***Carriages will be in readiness to convey passengers to and from Mattawamkeag

D. W. MOOR, Agent.

Oldtown, April 23, 1855 tf

Buy me and I'll do You Good.

Now is the Time to Use,

Dr Langley's Root and Herb Bitters, Compound Dock Root, Sarsaparilla, Prickley Ash, Wild Cherry, Dandelion, Mandrake, Rhubarb, "Root and Herb Jaundice Bitters."

Only 37 1-2 Cents for a Quart Bottle. Only 25 Cents for a Pint Bottle.

Purify the Blood and you have health. Cleanse the Fountain and the stream will be pure.

Decidedly the greatest Medicine for the Least Money in the world.

The Ladies all like them for they are sure to do them good.

The Root and Herb Bitters have cured the past year, 10,000 cases of JAUNDICE,
11,000 cases of LIVER COMPLAINT,
17,000 cases of DYSPEPSIA,
20,300 cases of BAD HUMOR,
25,000 cases of COSTIVENESS,
13,000 cases of PILES,
19,000 cases of COUGHS and COLDS, and have cured and benefitted more than 200,000 persons besides.

Diseased liver—ferment of the saw,
Was fought and conquered by great Langley's plan,
Heat, gloomy Jaundice, trembling fled the field,
By Langley's Bitters forced at last to yield—
Then dread Dyspepsia left the scene of strife,
Nor dared to face the glorious draught of life!
Bile, Headache, Humors, Piles and Costiveness,
Those dreaded ills which cause such wretchedness,
By Langley's Bitters, are forced to yield,
While Health and Strength united hold the field.
Are you temperance folks—when this medicine is used,
No drink alcoholic is by it abused;
Nor need the sick mother feel any alarm,
To the tenderest infant it cannot do harm.
Pleasant to take and always does good

Wholesale Depot is 99 Union Street, Boston.

Sold in Bangor by J. S. Ingraham, Guild & Harlow, G. F. Sargent & Co., W. L. Alden, Wm. Mann, H. W. Fuller, and E. Doolittle; Dr. A. Rogers, Hampden; S. Libby, Orono; A. S. Kimball, Oldtown.

April, 1855 W A BLAKE, General Agt

R. R. R.

IMPORTANT PROCLAMATION!
A Great Mystery Explained.

In the year of our Lord 1847, in our capacities of analytical chemists, we discovered that by uniting certain vegetable agents, which had never before been used in medicine, we obtained properties possessing such a marvellous quick power over PAIN, that the moment it was applied to the parts affected with pain, all uneasiness ceased. The most torturing pains were relieved in an instant, and the most violent spasms and irritations were soothed, and the system restored to perfect ease in a few minutes.

In 1849 we introduced this Remedy to the world under the name of

RADWAY'S READY RELIEF

It has been used by hundreds of thousands throughout the United States, giving instant ease to all troubled with Pain or Sickness.

One application externally, or a few drops taken internally, will instantly free the sufferer from the most violent and terrible pains, and restore the weak, feeble, and prostrated frame to strength and vigor.

No person has ever used RADWAY'S READY RELIEF without deriving some special benefit in less than fifteen minutes after its use.

Let those who are now suffering any severe pains give it a trial, for in fifteen minutes they will enjoy ease and comfort.

RADWAY'S READY RELIEF

was the first and is the only remedy ever discovered that will stop the most torturing pains in a few seconds, and free the system from Rheumatic, Neuralgic, Nervous, and Miasmatic Disorders in a few hours. It will cure and protect the system against sudden attacks of

CHOLERA,	DYSENTERY,
DIARRHEA,	CHOLERA MORBUS,
BILIOUS CHOLIC,	FEVER AND AGUE
PNEUMONIA,	INFLUENZA.

Bear in mind, it is a powerful Disinfectant, antiacid, diffusive stimulant, netrine, anti-spasmodic, and counter irritant.

The R. R. REMEDIES are medical discoveries of the present century. They are prepared on an entire new and original theory, "to stop pain instantly," and protect the human system against sickness or any sudden attacks. The doses required to be taken are small. A few drops of READY RELIEF exercise a powerful influence over diseased action.

IT HAS CURED

Rheumatism in four hours,
Neuralgia in one hour,
Croup in ten minutes,
Diarrhoea in fifteen minutes,
Toothache in one second,
Spasm in five minutes,
Sick Headache in fifteen minutes,
Chill Fever in fifteen minutes,
Chilblains in five minutes,
Sore Throat in four minutes,
Influenza in one hour

SPINAL COMPLAINTS, Stiff Joints, Cuts, Bruises, Wounds, Frost Bites, Cholera Morbus, Dysentery, Tic Doloreux, and all other complaints where there are severe pains, RADWAY'S READY RELIEF will instantly stop the pain, and quickly cure the disease.

[For the remarkable efficacy of R. R. R. Discovery, No. 2, and the complaints cured by Radway's Renovating Resolvent, see in next week's paper.]

R. R. Remedies are sold by Druggists everywhere. H. H. HAY, Druggist, Portland, general agent for the State of Maine.

Bangor, August 2.

The Great European Cough Remedy.

Important to the Consumptive and the Public generally. The celebrated

Universal Cough Mixture

IS a safe and effectual Remedy for Coughs of every description, whether of children or adults, of recent or long standing

PREPARED ONLY BY
REV WALTER CLARKE,
Sole Proprietor, Cornishville, Maine.

Within the last twelve months thousands of bottles of the Universal Cough Mixture have been sold in the State of Maine alone, and everywhere its extraordinary power in relieving and curing diseases of the Chest and Lungs, is gratefully acknowledged and especially in cases of obstinate and long standing Coughs, it speedily allays the unpleasant sensation in the throat which excites coughing, it promotes free and easy expectoration, and by removing the exciting cause of the cough, it frequently enables the sufferers to enjoy natural and refreshing sleep, who for weeks had been deprived of that blessing

Sold in trial bottles, 25 cents each; large bottles, each containing the quantity of four small ones, 75 cents each.

PUBLIC HOUSES.

Eveleth House,

At Foot of Moosehead Lake,
GREENVILLE, ME.

W. H. CROSSMAN, formerly of the Waterville House, Waterville, and JOHN SHAW, formerly of the King House, Bath, would respectfully announce to the public, generally, that they have taken the above named new and convenient House, and furnished it throughout with substantial and elegant furniture, and are prepared to furnish the Traveling Public or Pleasure Parties, with better accommodations than can be found at most Hotels in large cities.

As a Summer Retreat

For Hunting, Fishing, Bathing, or to the lovers of Beautiful Scenery, this House and location offers great attractions—more probably than any in the State of Maine

Persons traveling for business or pleasure will find at this House a table well supplied with the luxuries of the season, good Rooms, and every accommodation which can be desired.

The subscribers hope, by strict attention to business, and keeping in every respect a good House, to receive a liberal share of patronage.

CROSSMAN & SHAW, Proprietors

Greenville, Jan 20, 1855 tf

STANLEY HOUSE,

WATER STREET, AUGUSTA, ME.

G. W. RICKER, would respectfully announce to the Traveling Public that he has reopened the Stanley House, Augusta, and furnished it throughout with NEW and ELEGANT FURNITURE, and made every arrangement necessary to continuing it as a First Class Hotel.

This is the most centrally located House in the city, being directly opposite the Depot, and in close proximity to the steamboat landing, Court House, Post Office, and but a few minutes' walk from the State House.

Business men, or persons traveling for pleasure, will find that this House affords every convenience or luxury that can be desired, and the Proprietor is determined to spare no pains to make it in every respect second to none in the State

Books for all Stages leaving town will be kept at this House

In connection with the above are good Stables with attentive and careful Hostlers

DR. J. H. SCHENCK'S
SEA WEED TONIC,
—FOR THE—
Cure of Dyspepsia.

THIS remedy is composed of a compound preparation of a common weed growing along the sea shore, and is a certain remedy for the cure of Dyspepsia and its accompanying diseases, to wit

Sour and Sick Stomach, Loss of Appetite, Headache, Pain in the Side and Breast, Palpitation of the Heart, Ulcers and Eruptions of all kinds, Chills and Fever, Gravel, and Diseases of the Kidneys, Nervousness, Weakness of the Limbs, Fainting Spells, and all diseases peculiar to Females

Nearly every person is more or less afflicted with Dyspepsia, or some of the diseases connected with it, and it is with feelings of pleasure that Dr Schenck can announce to all such the discovery of the virtues of the Sea Weed, which is just the remedy for their ailments. Dyspepsia and the many diseases arising from it, is caused by the deficient secretion of the gastric juices, and weakness of the powers of the stomach. The effect of the Sea Weed Tonic is felt soon after it is taken, as it supplies at once the principles of the deficient gastric juice, and the food is digested naturally. In fact the Tonic so nearly resembles the natural gastric juice that chemists even find difficulty in distinguishing them. It gives tone and strengthens the stomach, thus enabling it to secrete the proper quality and quantity of Gastric juice, and Dyspepsia and all its diseases soon disappear

It is a well known fact that none suffer like the Dyspeptic, for in addition to the Dyspepsia there is often either Headache, Sour and Sick Stomach, Pain in the Side, Palpitations of the Heart, Chills and Fever, Gravel, Disease of the Kidneys, Nervous Weakness and Tremors, General Debility, Faintness, Loss of Appetite, Bad Taste, Fever, Stoppages in Females, all or each of them arising from a disordered state of the Stomach, and here is a newly discovered *remedy*, for the trifling sum of one dollar, that will cure all this train of disease!

Now, Dyspeptic, will you not avail yourself of this remedy for so trifling a cost? or will you still suffer on? The choice is for you to make. The Sea Weed Tonic is a pleasant bitters, giving a person a good appetite and good digestion. It is put up in quart bottles, always agrees with the stomach, and *one bottle* generally effects a cure. Whenever the bowels are costive, the tongue furred, or the complexion sallow, a few of Schenck's Mandrake or Liver Pills are to be used. A box of these Pills accompanies each bottle of the Tonic, and will be found in a recess of the bottle, covered with a label

SCHENCK'S
MANDRAKE PILLS

Will be found to possess those qualities necessary to the total eradication of all bilious attacks, prompt to start the secretions of the liver and give a healthy tone to the entire system. Indeed, it is no ordinary discovery in Medical Science, to have invented a remedy for these stubborn complaints, which develops all the results produced by a heretofore free use of calomel—a mineral justly dreaded by mankind—and acknowledged to be destructive in the extreme to the human system. That the properties of certain vegetables comprise all the virtues of calomel, without its injurious tendencies, is now an admitted fact, rendered indisputable by scientific researches, and those who use the Mandrake Pill, will be fully satisfied that the best medicines are those provided by nature in the common roots and herbs of the fields

The Pills open the bowels and correct all bilious derangements without salivation, or any of the injurious effects of calomel or other poisons. The secretion of bile is promoted by these Pills, as will be seen by the altered color of the stools, and disappearing of the sallow complexion and cleansing of the tongue

Ample directions for use accompany each box of Pills, and the price of a quart bottle of the Sea Weed Tonic and box of Pills combined is only one dollar. But separate boxes of Pills can be had of any of the agents for 25 cents.

These remedies are prepared under the personal supervision of Dr J H Schenck, proprietor of Schenck's Pulmonic Syrup, the well established remedy for Consumption, Bronchitis, Coughs, Colds, &c, &c, and the inventor of the celebrated Respirometer, for examining and detecting all diseases of the Lungs, Heart, &c

DR. J. H. SCHENCK'S
PULMONIC SYRUP,
For the Cure of Consumption.

THE proprietor of this medicine was himself [illegible] reduced so low as to be given up by his physicians and friends, in the last stage of Consumption. When all hopes of ever getting well had fled, he was strongly recommended to use a Syrup made from an old [illegible] which succeeded in gradually curing him. The family physicians and a large number of respectable gentlemen [illegible] and soon the Pulmonic Syrup obtained a reputation never equalled in that section of the country. Creating, as this case did, a sensation second to that only of a *miracle*, Dr. Schenck was waited upon by many similarly afflicted, to whom he administered the Syrup with the same beneficial results. In fact, such was the notoriety of this medicine that eminent physicians had their attention drawn toward the rising reputation of it, [illegible] witnessed its curative powers and freely extended the hand of friendship to the discoverer, Dr Schenck, and introduced the medicine to the public and used it in their daily practice.

No other medicine operates upon the system in the manner that the Pulmonic Syrup does. It produces a healthy action upon the [illegible] by purifying them from disease, it promotes the expectoration, allays the cough, ripens the matter on the lungs, and when it is discharged, it heals the opening that the breaking of the tubercles or abscess produces, and the lungs become sound and resume the performance of their natural functions. It also soothes the irritated portion of the lungs and other organs, and thus restores those parts to health. A superior property that this medicine possesses over all others is that it contains no opium, calomel, or any other deleterious medicine

In 1841 Dr. Schenck removed from Flemington, New Jersey, to Philadelphia, and commenced the practice of his profession, where he soon acquired a reputation excelled by none, in curing a disease that had heretofore been deemed incurable, and he has since then daily presented to the world incontestable evidence of his success.

Both of his parents died with Consumption, which appears to have been an hereditary disease with his father's family. All his brothers and sisters except one died early of this disease, none of them, but the one brother, reaching the age of twenty.

This left nearly the last of his family, he naturally felt some alarm, as one after another were consigned to the silent tomb by this fell destroyer

VOLUNTARY TESTIMONY.

We the subscribers, residents of Flemington do hereby certify that we are well acquainted with Dr J. H. Schenck. He was attacked by disease, which as we believe, terminated in Pulmonary Consumption, under the operation of which he was reduced so low as to be unable to leave his bed for a long time and to all appearance was past recovery. He is now perfectly well—his cough and fever have left him, and we feel justified in declaring it as our belief that these salutary effects have resulted from the use of the Pulmonic Syrup

AYER'S PILLS

Are curing the Sick to an extent never before known of any Medicine.

INVALIDS, READ AND JUDGE FOR YOURSELVES.

JULES HAUEL, Esq., the well known perfumer, of Chestnut street, Philadelphia, [illegible]

"I am happy to say of your Cathartic Pills, I have found them a better family medicine [illegible] than any other within my knowledge. [illegible] friends have realized marked benefit [illegible] coincide with me in believing that they possess extraordinary virtues for driving out diseases [illegible] They are not only effectual but [illegible] taken, qualities which must make them valued by the public, when they are known."

The venerable Chancellor WARDLAW writes from Baltimore, 15th April 1854

"Dr. J. C. Ayer—Sir: I have taken your Pills with great benefit, for the listlessness, languor, loss of appetite, and Bilious headache, which has of late years overtaken me in the spring. A few doses of your Pills cured me. I have used your Cherry Pectoral many years in my family for coughs and colds with unfailing success. You make medicines which cure, and I feel it a pleasure to commend you for the good you have done and are doing."

JOHN F. BEATTY, Esq., Sec'y of the Penn. R. R. Co., says:

"Pa. R. R. Office, Philadelphia, [illegible] Sir: I take pleasure in adding my testimony to the efficacy of your medicine, having derived very material benefit from the use of both your Pectoral and Cathartic Pills. I am never without them in my family, nor shall I ever consent to be, while my means will procure them."

The widely renowned S. S. STEVENS, M. D., of Wentworth, N. H., writes

"Having used your Cathartic Pills in my practice, I certify from experience that they are an invaluable purgative. In cases of disordered functions of the liver, causing headache, indigestion, costiveness, and the great variety of diseases that follow, they are a surer remedy than any other. In all cases where a purgative remedy is required, I confidently recommend these Pills to the public as superior to any other I have ever found. They are sure in their operation, and perfectly safe, qualities which make them an invaluable article for public use. I have for many years known your Cherry Pectoral as the best Cough medicine in the world, and these Pills are in no wise inferior to that admirable preparation for the treatment of diseases."
